WASHINGTON HIGH SCHOOL ANNOUNCEMENT

ORAL ROBERTS 4-10-73

e here at the Oral Roberts University are very interested about the future of Washington High School and about the voluntary efforts to integrate and to have students from various families in our entire city. We are trying to practice brotherhood here. We have both white and black and in fact uh students of many colors and races here at the university. We are getting along beautifully and we think that this thing at Washington High School has a great future and I just hope and pray, in fact, we all hope and pray that we all can get together and that this will be more than an experiment, it will be something living in the midst of all of us that demonstrates our real sincere feelings of brotherhood.
