God is raising up His Healing Corps.

**We are building Graduate Student Housing at
Oral Roberts University**

God is raising up a special Healing Corps to take His healing power into every man's world. Oral Roberts University Graduate Students are being prepared to be His hands and feet as a Healing Corps reaches out under the direction of the Holy Spirit.

Applications are pouring in for admission to the graduate schools, and the programs are almost ready to go into operation. The time has come to begin construction of the Graduate Student Housing Complex, and I would like to offer you an opportunity to take part in sending out God's Healing Corps as a Seed-Faith project.

The Graduate Student Housing Complex will be the students' base of operations as they move in for training and then move out around the globe. Here they will be equipped for action around the world where they will minister to the people through prayer, medicine, teaching, sharing God's Word, and giving of themselves. As the students graduate God will direct carefully selected teams to strategic locations, wherever His healing power is needed.

God's healing power will be moving through these students. The seeds of love and concern they plant in the lives of people around the world will be multiplied back many times over as they recruit qualified individuals from these countries to attend a unique program at Oral Roberts University. These foreign students will receive special training

and then return to their own lands to share God's healing power with their own people. God has already sent His first teams abroad as ORU students minister in various areas of the world. (See Special insert).

This fully equipped housing complex will be located just across from the Avenue of Flags on Lewis Avenue. It will be well constructed and sensibly furnished. Although the initial cost will be high, the cost of maintenance will be low. The complex has been designed to provide the best possible conditions for each student to develop excellent professional skills and to perfect the qualities of character, self-discipline and stamina, and sensitivity to the needs of others necessary to become an effective member of God's Healing Corps.

The Healing Corps is going to grow as more and more students go through their training. More and more people will be helped. The seed you plant in this project is going to bring more than one crop of miracles, because the seed you plant will multiply into many new seeds as these students minister to the needs of people. Your seed will be part of their seed, and you will get a whole harvest of miracles from that first seed you planted.

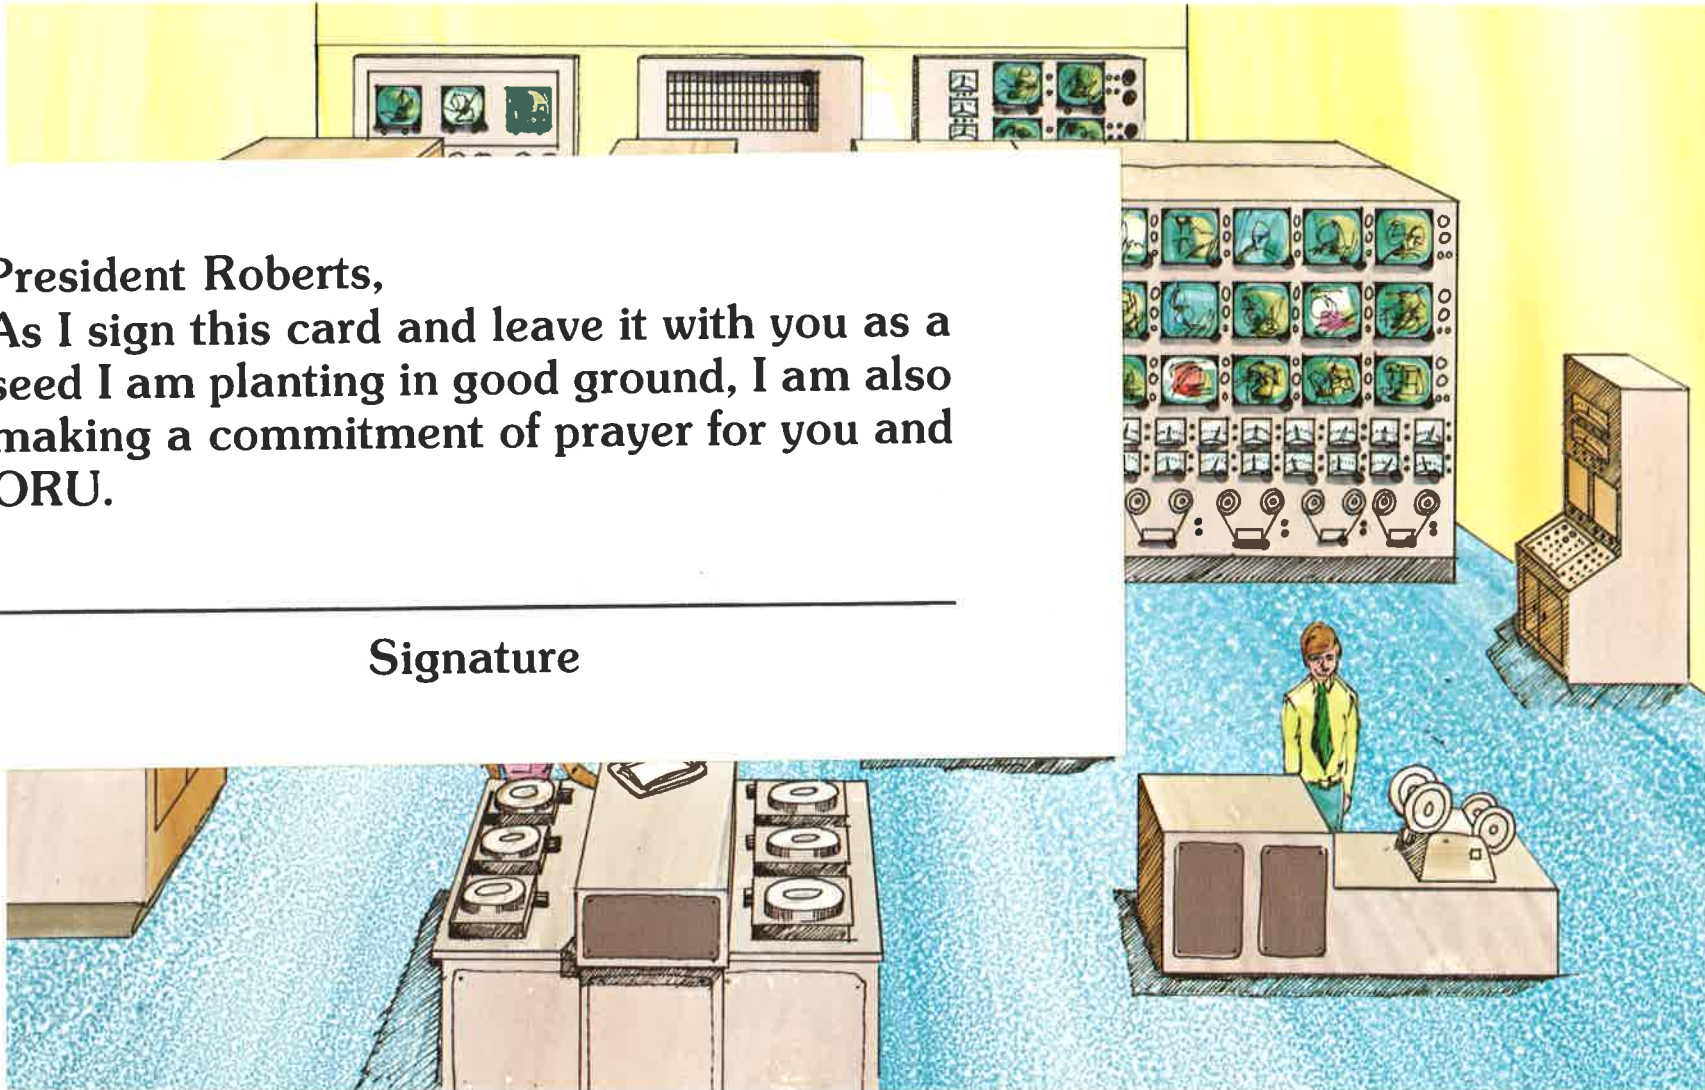

If you have needs in your life and you feel God is leading you to plant a seed of faith here to get those needs met, pray about it. Let Him show you your depth; do exactly what He impresses you to do. That seed planted in faith will reap a whole harvest of miracles . . . and remember the harvest is greater than the seed—I really believe that.

President Roberts,
As I sign this card and leave it with you as a seed I am planting in good ground, I am also making a commitment of prayer for you and ORU.
