# **The City in Outer Space!**

**BY REV. O. L. JAGGERS**

## **PART TWO**

*(Concluded in this issue)*

As a result of these new flights, another experimental plane, capable of reaching an altitude of 200,000 feet, thirty-seven miles high, and with a speed of over eighteen miles per second, is now being built. I have the authentic information on it. These efforts being put forward today in the development of research planes and high altitude rockets, are all directed toward one goal: the manned rocket craft of the future. Man is reaching out beyond the atmosphere, and the conquest of space is as inevitable as the rising of the sun. Man can reach space and establish, 1075 miles above this earth, a huge wheel-shaped city in outer space. When you hear this sermon tonight, I want you to know that this is not a scientist's, or rather a science-fictionist's dream, but this sermon embodies the latest available facts and data on the many problems which man must face when he passes beyond the atmosphere and attempts to survive in the unfriendly areas of space. There is a blueprint for the conquest of space prepared by some of the World's best scientific minds on space research.

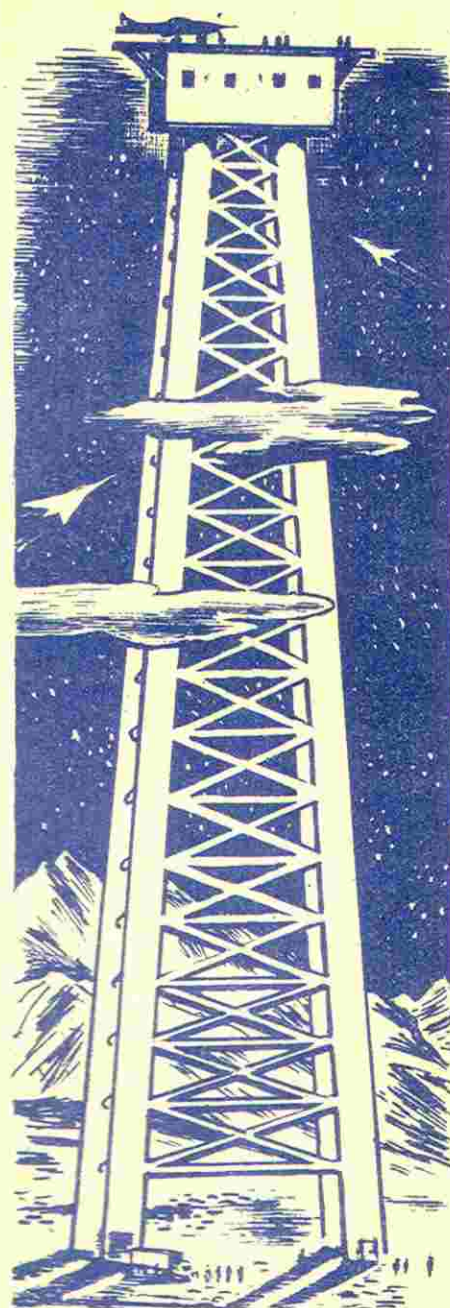

### **KNOWLEDGE WILL BE INCREASED**

Even the cost of this city in outer space has already been estimated: four billion dollars! And when you consider the billions of dollars spent during World War II, on re-armament, and since the Korean War started, such an expenditure would be small compared to the returns of the city in outer space. A new era for mankind is opening. Once the city in outer space has been erected, from that city in outer space, men will be able to visit, and incidentally to photograph, the never-before seen back of the moon. I'm giving you scientific facts tonight. The round trip between the city in space and the moon, if it could be accomplished, would be accomplished in only ten days. In time it would also be pos-

sible to reach the nearer planets from this city in space. Even without leaving the city in outer space, man will be able to learn much more about the universe than he could possibly hope to from this earth. Because of the interfering atmosphere, our earthbound astronomers are blindfolded to a certain extent and cannot tell us about the world above. But from the city in space, using powerful telescopes, on this observatory, astronomers will be able to examine minutely and to map galaxies of stars that are far beyond our own.

For the first time, scientists will be able to view the planets clearly. Scientists will be able to investigate such little known phenomena as cosmic radiation and its effect on man, and ultraviolet light which is virtually invisible from this earth. Incredible as it may sound to you tonight, we will even be able to learn more about the earth and the core of the earth from the city in outer space than we will from this earth. Meteorologists will be able to predict climatic conditions months ahead with accuracy by charting the earth's weather once every 24 hours from the city in space. The potentialities of this city in outer space in a world of peace transcends our imagination. But besides being a springboard for our exploration of the heavens, and the gathering of further knowledge for the benefit of man, this city in space could be the greatest force for peace ever devised, or could be one of the most terrible weapons of war depending on whoever builds and controls it first. The United States is embarking on a long-range development program, to secure for the West space superiority.

However, a ruthless power like Russia established on a space station, could actually subjugate the peoples of the world. Sweeping around the earth in a fixed orbit like a second moon, this man-made island of the heavens could be used as a platform from which launched guided missiles, radar-guided projectiles, armed with atomic warheads, could be fired upon any target on the earth's surface with terrible

A launching tower seven miles high where it is 60 degrees below zero . . . with a jet plane base on the top where we would be above any attacking planes, which could be picked up by radar. The plans for this tower were on the desk of President Eisenhower. The four legs of the structure would contain elevators.

accuracy. And because of their enormous speeds, and relatively small size, it would almost be impossible to intercept such missiles. In other words, whoever is first to build this city in space, can prevent any other nation in the world from doing so.

We know tonight, and I have authentic information here, that the Soviet Union, like the United States, has an expensive guided missile and rocket program under way. Recently, the Russians intimated that they were investigating the development of new rockets capable of leaving the earth's atmosphere and going out into space.

We have already learned, to our sorrow, that Russian scientists and engineers should never be under-estimated. They produced the atomic bomb years earlier than was anticipated. We found out, to our sorrow, that they had both the atomic and the hydrogen bomb. And the Soviet Union has begun work on this space project, where they can shoot guided missiles to any part of this earth, with atomic bombs in them.

The United States' scientists point out that basic knowledge for such a program of a city in space has been available to the Russians for the last twenty years! The United States has the scientists and the engineers, we have the inventive genius, we have vast industrial superiority. The nation has begun a space program for the hands of peace-loving nations. The space city could be man's guardian in the skies. Using special optical instruments, its crew could observe every portion of the earth. They would be able to see, for example, bombers forming into squadrons over airfields, troop formations, planes taking off from aircraft carriers. Indeed, no major move of the enemy could go unnoticed. No nation could ever make preparation for war without the certain knowledge that its massing troops were being observed by the ever-watching eyes aboard the city in outer space. It would be the end of "iron curtains," wherever they might be.

#### **RADAR IS POOR DEFENSE!**

These things are true. We know, for example, that our radar secrets have been stolen, or given into the hands of Russian spies.

I have here an article, which I have removed from an outstanding magazine, and it says, "Russian planes are flying over Canadian skies." They sneak in almost daily, our northern outposts reports, and now that Russia has the H-bomb, we are wide open for attack. What's being done about it? The

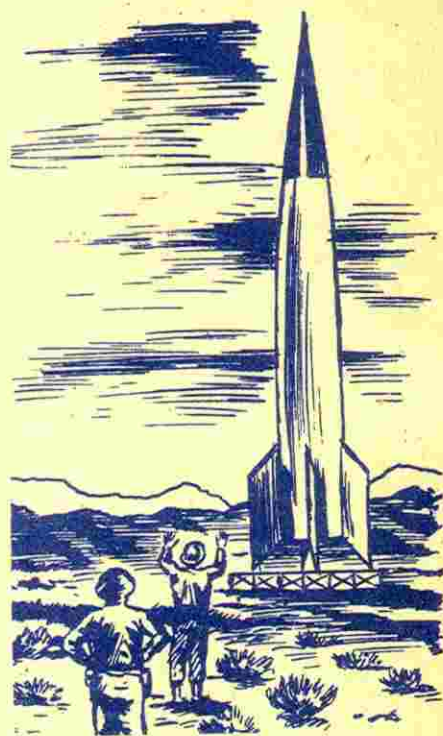

author, seeking the answer, visited installations of radar so secret that he can't say that he has seen them. He flew thousands of miles and saw the Red intruders himself.

We are building a defense by radar. But now, this is of no value to us, because, you've been reading in the newspaper in the past one week, that Senator McCarthy's committee has uncovered the truth that our outstanding radar secrets have now been given into the hands of enemy spies.

One reason I'm bringing you this sermon, my friends, is because I want to show you that man is reaching a pinnacle in science and scientific achievement. And that is why the church must reach a new pinnacle of spiritual achievement for our Lord, Jesus Christ! The church must have an aggressive message to advance against the forces of evil. The church must have a deliverance message to offset the fear and dread of this atomic age. Therefore, God has raised up a Twentieth-Century church; a modern, up-to-date, streamlined church with a Twentieth-Century message. A church that is not only keeping up with the times, but is ahead of the times! God, tonight, has a supercharged, dynamic deliverance gift of the Spirit Church! God's 'Atomic Church,' if you please, for these modern times! God is equaling the wisdom and the knowledge of science with the Wisdom and Knowledge of God that He is giving to the Church.

This artificial moon will be carried into space piece by piece by rocket ships, and it is expected to travel on its celestial route 1,075 miles above this earth. It will complete a trip around the globe every two hours. Nature will provide the motive power; and the balance between its speed and the earth's gravitational pull will keep the city in outer space on course. The speed at which the 250 foot wide city will move will be 4.4 miles per second! Or, 15,840 miles per hour! However, this terrific velocity will not be apparent to the occupants of the city in space. To them the space station will appear to be a perfectly steady platform.

Many of you will ask, "Brother Jaggers, what keeps this city suspended in space?" Actually this huge man-made satellite isn't kept up. It is constantly falling . . . but when an object is at a certain height and moving at a precise speed it will fall AROUND the earth. At a height of 1,075 miles, and moving at a tremendous speed in its orbit around the earth, this city will be

3-stage rockets will be used to carry the city in outer space into position piece by piece!

drawn toward the earth, but as fast as gravity drags it downward, the earth will curve away beneath it. It will fall around the earth fast enough to circle the earth at a dazzling speed.

#### **GOD GIVES PEACE**

I tell you, my friends, that while the countries of this world are preparing for an atomic war against each other, the Church is preparing for an atomic war against sin! While preparations for an atomic war, jet propulsion, cities in outer space, and modern horrible weapons of warfare are creating a horrible fear in the hearts of people across this earth, because the public doesn't know what to expect next, thank God the Deliverance Church is bringing a religious message of peace! Thank God the Word of God says that Jesus Christ has not given us the spirit of fear, but He has given us the Spirit of Love and Peace.

The Peace of God passeth all understanding, easing our minds through Christ, even in such times as this! That's why I say to you that a real, genuine, experience in salvation is the most wonderful and profound thing in this world! Because a real, genuine, born-again, experience of salvation means that darkness has turned to day, it means that hell has turned to

# GOD WILL SET YOUR FIELDS ON FIRE!

**BY REV. JACK COE**

Our sermon is taken from 2 Samuel; 14:29. "Therefore Absalom sent for Joab to have sent him to the king; but he would not come to him; and when he sent again the second time, he would not come. (14:30). Therefore he said unto his servants, See, Joab's field is near mine, and he hath barley there; go and set it on fire. And Absalom's servants set the field on fire. (14:31) Then Joab arose, and came to Absalom unto his house, and said unto him, Wherefore have thy servants set my field on fire?"

I got a picture when I read this: Absalom sent for Joab to send him to the king, but he would not come; he sent again and he would not come the second time. Absalom looked out the window and saw Joab's barley fields. They were beautiful barley fields, waving in the golden sunlight. He said to his servants, "There's one way to get old Joab here, and that is to take fire and set fire to his barley fields. And when those barley fields start burning, old Joab will come running!" So he

went out and touched fire to those barley fields. And when they started burning, old Joab jumped up and shook himself, and came running to Absalom's house, and said, "Absalom, Absalom, My God, Absalom, why didn't you tell me what you were going to do? Didn't you know that barley field was the only thing I had left in the world? Didn't you know that everything that I had was tied up in that barley field? Didn't you know that the only possession I had was that barley field. If you had told me what you were going to do, I would have come!" Absalom said, "I sent for you and you wouldn't come; I sent again, and you wouldn't come. There was only one way to get you here, and that was to take something that you dearly loved."

There are many people in the world today that God is about tired of playing with. God's about tired of fooling with some of you! And God is about ready to burn some of your barley fields. God's called some of you once, God's called some of you twice, and

God's called some of you three and four times, but you've stopped your ears to the call of God, and you haven't listened to God's call!

But let me tell you something. One of these times you'll go to the side of the baby's bed, and you'll find the baby dead and cold! You'll wake up one of these nights to find your house on fire! You'll go some day to the doctor's office and learn that you've got a cancer that's slowly eating your life away! And then you'll get down on your knees, and call out, "My God! My God! Why did you let this thing happen to me?" And you'll hear the voice of God saying, "I sent for you once, I sent for you twice, and I sent for you again and you wouldn't heed my calling, so I burnt your barley fields to wake you up and get you out of the state that you're in!"

## **GOD BURNT DAVID'S FIELDS**

The Bible said that David stayed in the city while the battle raged. The Bible said he then stuck his nose over his neighbor's wall into his neighbor's

business. There are people today that have their nose in someone else's business! The Bible said that David saw his neighbor's wife taking a bath. The Bible said he lusted after her. The Bible said he sent for her and that she conceived and told David she was with a child.

I can see David when he lay asleep at night. God came down and shook him and said, "David, David, haven't you always been a man after my own heart? You've denied flesh and worldly things! Haven't I been good to you?"

David said, "This is my sin, I've got it hidden! Nobody saw me when I committed adultery!"

God saw David when he committed adultery! God knows every sin you've ever committed. God knows every lie you've ever told! God knows every time you've talked about your neighbor and every time you've criticized! There's an all-seeing Eye watching you!

David said, "I'll hide this sin, and never sin again!" But let me tell you that one sin will lead to another sin!

When David found out that Bathsheba was with a child, he said, "I know what I'll do, I'll send and get the Hittite, and I'll send him in to his own wife. I'll make him think that this is his child." He sent and got the Hittite and brought him back, but that man was so faithful to his comrades who were sleeping in open fields that he would not go down to his wife. Then David sent him to the front of the battle where he knew he would be killed. David said, "I'll take Bathsheba for my wife, and I'll take that child for my child, and my sins will be buried and nobody will ever catch me!"

And so the Hittite was killed, and David took Bathsheba for his wife. Everything went well for a little while, but one day that child fell sick. For eight days and nights he fasted and prayed, yet the child died.

Do you know what was the matter with old David? God was burning his barley fields!

After the child died, David washed his face and annointed his head and he went in and began to eat! They said "We were afraid to tell you your child had died, for fear that you would grieve yourself to death!" And David said, "I can't bring the child to me. All I can do is go to the child." But that isn't really what he meant: this is what he really meant. He said, "My sins are paid for. The child is dead. I've paid my price." But, brother, he hadn't paid

his price! David committed adultery! David's boy committed adultery with his sister. That is the adultery that David committed. And then David's son murdered his other brother. That was a murder that David committed! And then the day that Absalom died, David stood crying, "My God, Absalom, Absalom, would that I could have died in your place!"

You know what was the matter with old David? God was burning his barley fields!

Let me tell you something. You may have some little sin in your life that you may think you're getting away with. But not one tiny little sin is going to get by God! If one little sin could get by God, then the whole word of God is a lie and a curse! I wouldn't even want to believe in it!

#### **GOD BURNT MY MOTHER'S BARLEY FIELDS**

I never will forget when my brother died and went to hell. Somebody said, "Preacher, you shouldn't say that!" But that's where he went. I know it. He died and went to hell.

They set his coffin down in front of that Baptist Church. One by one the people passed by. When my mother came to the coffin, it was more than she could bear. My mother threw herself across that coffin. When they had pulled her away, she turned, and with tears rolling down her cheeks, said, "I sent my boy to hell!" She said, "I'm a church member, I attend church, but

I haven't been living for God. God's come to me and spoken to me in the wee hours of the morning, but I haven't listened to him. God has spoken to me and said, "Pray and seek my face." But I haven't paid any attention to him. I've sent my boy to hell because I haven't been living for God!"

When they lowered my brother into the ground they said "From dust thou art, and to dust thou shalt return." And my mother said, "No, not to dust, but to hell!" Do you know what was the matter with my mother? God was burning her barley fields!

Oh, yes! You can sit there with a blank look on your face if you want to, but let me tell you something, if God begins to burn your barley fields before morning, it will change the look on your face, it will cause you to dig the sins out of your heart! It will cause you to come to God weeping and crying, "My God! My God! Why did you let this thing happen to me?" And you'll hear the voice of God saying, "I've called you many times, but you wouldn't listen to me. There was only one way I could get you here, and that was to take something that you really loved!"

#### **GOD IS PATIENT**

God is a good God, He's a kind God, yes He is! He's a kind God! But you can't have daylight without having darkness! You can't have mercy with-

## GREETINGS FROM THE CHILDREN'S HOME

What a wonderful time we all had during the recent Christmas season here in Dallas at the Herald of Healing Children's Home. The weather was crisp and cool, but our hearts were warmed by the wonderful gifts from our many friends. The children's eyes sparkled with joy as they beheld the toys and clothes that were given them! They were taken to several church Christmas services where they entered into the worship of Jesus as the story of his birth was related.

Shortly before Christmas, the employees and management of the Dallas branch of the Southwestern Bell Telephone Co. invited the children to a lovely dinner. As we entered the large room, everyone was amazed at the

beauty of the tables. It was probably the first real dinner that many of the children has ever attended.

When we were all seated, candles were lighted and one of our hosts prayed. The children were delighted to find, beside their plates, a lovely little place card with their individual names. Appropriate games were played after we had eaten and Christmas carols were sung. Then the gifts were distributed. Most of the things which the children received were clothing, for which we were grateful.

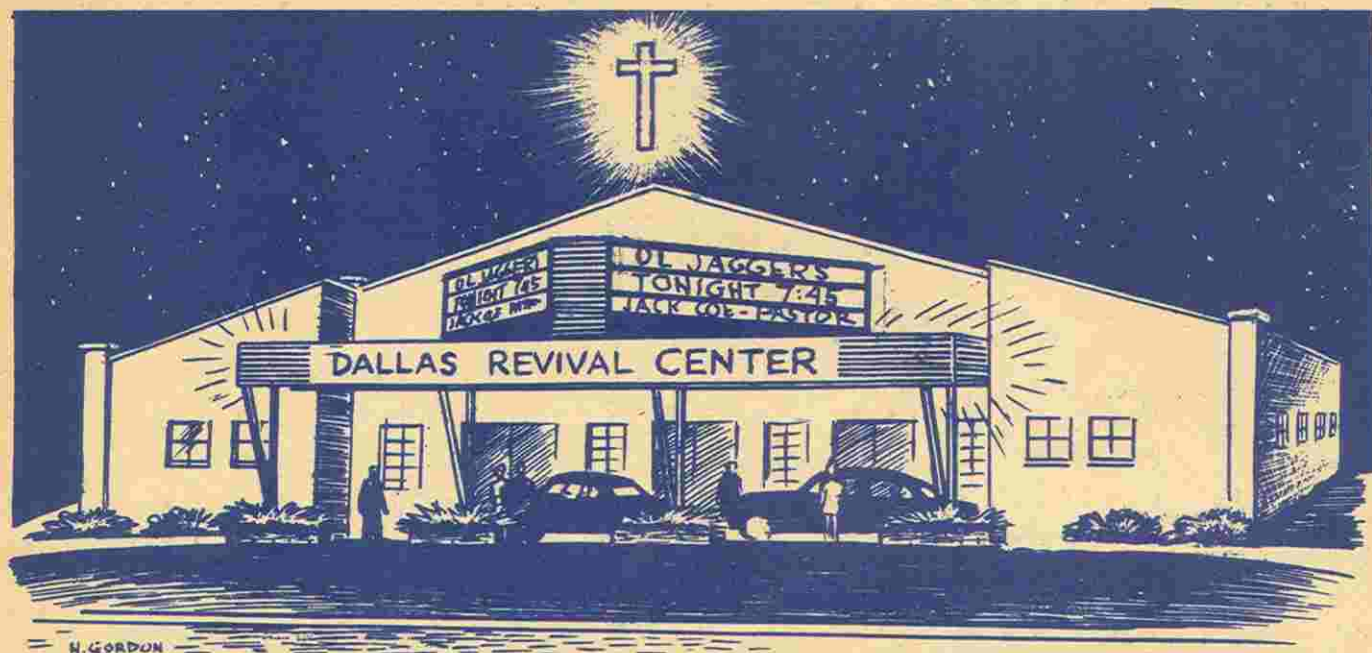

The children had a marvelous time, but those who gave the dinner seemed to enjoy it equally well. As we were leaving they told us that they were

sending us a dozen sheets and pillow cases for the home. With your continued help and support, we hope to double or triple the number of children in the Herald of Healing Children's Home. We know that God will help us in this undertaking.

God will bless all of you that have helped us during the past year. We wish you could share with us the joy that we receive from seeing these little hearts made glad. Remember us in your prayers.

# 1953 WAS YEAR OF GREAT TENT & AUDITORIUM MEETINGS ACROSS THE NATION!

## LOS ANGELES, FEB., 1953

The city of Los Angeles was stirred in one of the greatest revivals that it has ever known. Night after night thousands jammed the Shrine Auditorium (7500 capacity) to see the miracle working power of the Lord heal the sick. Countless numbers were saved and many backsliders were reclaimed.

## SACRAMENTO, APRIL, 1953

The entire Sacramento and San Joaquin valleys were stirred by this mighty move of God. By the first Sunday night, we had to move to Governor's Hall in the great State Fairgrounds. This huge auditorium was packed and many turned away. Miracles were numerous on all-scratcher case nights.

## AUSTIN, TEXAS, MAY, 1953

From the opening night the giant tent was filled in spite of winds and rain storms. On Sunday nights it could not contain the crowds. Hundreds saved and healed.

## DALLAS CAMP MEETING, JUNE, 1953

God stirred this great city through the ministry of outstanding evangelists who came from all over the U. S. for three wonderful weeks. God moved in an unusual way.

## PITTSBURGH, JULY, 1953

Miraculous healings took place nightly. Deaf mutes were instantly healed and repeated words that Brother Coe spoke behind their back. Tumors disappeared. Goiters disappeared. Never before had Pittsburgh seen such marvelous healings. Approximately 30,000 went forward for salvation.

## GOD WILL SET

(Continued from Page 6)

out having judgment. If God's a good God, and a kind God and a merciful God, He's also a God of anger, and a God of wrath, and a God of judgment! God hates sin! God hates every little sin!

I've heard dad say, "Son, if you don't tell daddy what you've done by 12 o'clock, I'm going to have to whip you." That dad didn't want to whip that boy. When the hands of the clock were nearing that hour, I've seen daddy open the face and push them back 15 minutes. He was hoping and praying that his son would come to him and say, Daddy, I'm sorry that I did wrong." . . . but when the clock finally struck 12 o'clock, he had to do what he had promised him that he would do. That's the way with God. He chastizes those that he loves! God is even now setting some of your fields on fire because he loves you.

### MY GOD, THE BABY!

I was holding a meeting in Broken Bow, Oklahoma a few years ago. One night in the service a woman sprang to her feet in the rear of the church and cried, "My God, the house is on fire. The BABY... THE BABY! Let me out of here. My baby's burning." The husband jumped up, grabbed her and began to shake her. He said, "What's the matter with you?" She said, "Didn't you see it. Our house was on fire." He said, "It's this holy roller church and the sermon this preacher is preaching. You're losing your mind. You're about to have a nervous breakdown." She said, "No, I'm not! I saw it. Let's go to the altar." He said, "Go to the altar nothing! We're getting out of here!" He grabbed her by the hand and pulled her down the street. He told her that he would never take her into that church again as long as he lived. He said "We don't need that holy roller religion. It's too disgraceful." She said, "Honey, please, let's go back to the church and try to get back to God." He said, "We're going home and we'll never darken the doors of that church again!"

### DISASTER STRIKES

The next day after she finished washing clothes, she hung them on a neighbor's clothes line, which was some distance away. Later in the day she noticed that a huge cloud had gathered and that already a few drops of rain had begun to fall. Hurriedly, she and her husband ran to gather in the clothes. Suddenly a blinding flash of

lightening blazed across the sky and with a deafening crash, struck their home. Immediately the house burst into a mass of flames. She cried, "My God, the baby!" As they ran toward the house, their 12-year-old daughter leaned from an upstairs window and screamed, "Mother, the BABY." As the father started into the house, that burning interior collapsed killing all three of their little children. They came into the church screaming as I was giving an altar call. They fell upon their knees and wept their way to salvation. Later, the man turned to Brother Burkett and said, "My God, man, why didn't you make me pray?" Brother Burkett said, "Would to God that I could have made you pray!" God had set that man's barley fields on fire.

Many times I have to be gone from home to hold campaigns in other towns and cities. I have a little blond-headed boy name Steve. He calls me daddy. He's precious to me. Recently, I was starting out the front door to leave on a trip. Little Steve came to the big window and cried out, "Daddy's gone, gone!" Tears were rolling down his cheeks and he pressed his little wet face against the glass. I went back into the house and I grabbed that little boy up in my arms, felt his little arm go around my neck, then he put his little wet cheek against mine, and I heard him say, "Daddy, I love you, I love you, daddy!" And I prayed, "Oh, God! Don't ever let me do anything that would cause you to burn my barley fields!" Don't ever take this child away from me!"

### GOD ALSO BURNS WILD OATS!

In Bakersfield, California I preached on this subject, and after the service was over, a mother, moved by the Spirit, went home to her son and said, "Son, this sermon was meant for you." And she took the Bible and began to read to him about Absalom and Josh. and she said, "Son, it's for you!" And that boy patted his mother on the back and said, "Mom, you know I have confidence in your religion. One of these days when I get old and get through having a good time, I'll live for your God. You go tell that preacher that I don't have any barley fields. I've got all mine sowed in wild oats!"

I closed that meeting in Bakersfield and went on to Chico, California. Suddenly my phone rang and a man cried, "My God, pray! For Jesus' sake, pray! MY BARLEY FIELDS ARE BURNING!"

And I said, "What are you talking about, man?"

He said, "You preached a sermon in Bakersfield that God will burn your barley fields! I laughed at my mother and said that I had all mine sowed in wild oats. My little twelve-year-old girl came down with polio and they have her laying in the iron lung: the doctors say she can't live. For God's sake, preacher, if you ever prayed, pray now!"

They took that little child out of the iron lung for a few minutes rest, and she looked up at her mother and father and said, "Where's my grandmother? I'm going to hell! Mother, you don't know how to pray! Where's my grandmother?"

They put that child back in the iron lung and in less than thirty minutes time, that child was dead. That dad and mother got down on their knees in front of the iron lung and gave their hearts to God!

I was holding a meeting a few weeks later, and that man came down to the altar and said, "My God, man, why didn't you tell me what it was like? Why didn't you tell me what it was like when God burns your barley fields?"

I said, "I did my best to tell you, I did my best to warn you."

He said, "I'll stay with God the rest of my days, but what a price I've paid!"

I'm not giving you this sermon to scare you. I'm just telling you that some of you are not praying and living for Jesus as you could be. You'd better begin to walk with God before he has to set YOUR fields on fire!

(THE END)

#### SWELLING CONDITION HEALED

Dear Bro. McGarrah:

For a whole year I had a poison condition in my body which caused a swelling in my hands and feet. Also a condition in my neck which caused a pressure in my head.

I thank and praise God that during your revival you had in Torrance, Calif. I was completely healed, when you prayed for me.

I feel like a new person and have been much more able to witness and work for the Lord.

Mrs. Ruth Ballard  
911 Sartori Ave.,  
Torrance, California

Dear Bro. McGarrah:

I praise God for healing my body and how wonderfully he uses you in manifesting the gifts of the spirit, especially the word of knowledge and healing.

Before you prayed for me, I was so nervous that I didn't rest well at night. I had sinus and terrible pressure in my head and neck and it hurt most all the time and I also had a weak back.

After you prayed for me God healed me and I feel fine, I rest good at night and feel like a new person.

Mrs. W. C. Smith  
601 Rike St.,  
McKinney, Texas

California woman who was healed of injured back.

Dear Bro. McGarrah:

I was in your meeting in Torrance, Calif. and was prayed for. I received a wonderful healing of an injured back of 10 months standing, also pelvis and nerve roots in my spine were all inflamed. I had been in the hospital in a traction for 3 weeks and was made to wear a brace constantly since the injury occurred, and even had 3 Orthopedic doctors work on me for 10 months but no longer, because praise the Lord, He has delivered me.

## Out of the Mail Bag!

October 28, 1953

Dear Bro. Coe:

I am writing in regards to the healing of my little girl, Sandra Kay Wood, whom God healed two and one-half years ago.

She could not walk, her feet turned in badly, and she didn't eat very much. She was two years old and a very skinny little girl, when prayed for.

But God wonderfully healed her after you prayed. She started eating and trying to stand up on her turned in feet. We have shoes she wore which are out of shape terribly.

Praise the Lord her feet are straight as any normal child's today.

When she was two years old we had to carry her everywhere she went. She couldn't walk at all. We took her to see the doctor one day, but we never got to see him. So we went to church that night and you were passing through Joinerville, Texas, giving out your papers that you were beginning a revival in Tyler or Longview, Texas. I've forgotten exactly which place. But in this little shack we called a church you came in and our pastor, Bro. Harold Reel, asked would you pray for a little girl and you said you would. But wouldn't pray for anyone else.

The little girl you prayed for was my daughter.

I can't praise the Lord enough for this wonderful miracle, but I am truly thankful to our wonderful Jesus.

Brother David Nunn told me to write you this testimony. He thought I should.

## Baptist Minister's Letter To the District Attorney in Monroe, Louisiana

District Attorney  
Monroe, La.  
Dear Sir:

It has just come to my knowledge that you were instrumental in the arrest of three non-denominational protestant ministers in Monroe. It is always somewhat of a shock to hear of any cases relating facts pertaining to the imprisonment of "bearers of the Gospel." Normally, we feel that there is no chance of losing that most precious of all Freedoms—"the Freedom of Religion." However, once in a while we hear of public servants yielding to the will of certain "pressure groups" that feel Freedom of Religion applies only to them.

As for charges of disturbing the peace; I once lived across the street from a football stadium. Surely there could be nothing noisier than that; It is natural for the human being to be loud while having a good time. While I am affiliated with a denomination that is quiet in worship, I wish that my people received enough blessing and enjoyment from their personal relationship with the Lord, that they would become a little noisier. At least then you would know that they were alive—spiritually. According to Acts 2 in the New Testament, it was the noise made in the Upper Room that gave the Apostle Peter a multitude to preach to—which resulted in the salvation of three thousand souls that day.

In closing, let me tell you of a great lawyer and teacher named Gamaliel. The priests of Jerusalem were overwrought because of the success of a small group of radicals who worshipped a poor carpenter named Jesus from Nazareth. Gamaliel told the priests—"And now I say, unto you, refrain from these men—and let them alone. For if this counsel or this work be of men, it will come to nought. But if it be of God, ye cannot overthrow it; lest haply ye be found even to fight against God!"

As you know, this same Jesus IS the LIVING Son of God. So, with all sincerity, sir—I suggest that you pass on this bit of wisdom to the pressure groups who care nothing of the honor of your office, nor of the Justice of God.

Sincerely,  
Rev. Richard P. Carter  
La Joya, N. M.

# Two Minutes Until Midnight

## Part Two of a Sermon by Rev. Jack Coe

... when the famine covers all the earth except Palestine, they will come down to get food! When people become desperate they will do anything to obtain food. And Russia will come down out of the far north to get it. She will come down riding upon horses, whether you believe it or not.

Russia has very little modern war equipment, regardless of the reports you read in the newspapers or magazines. They have a few large long range bombers and they do have the A-bomb and the H-bomb, but most of their army is still on horseback and with wooden weapons of war! It's true that she could drop an A-bomb or H-bomb or C-bomb on any one of the major cities of the U. S. in two hours, but we still have Russia outclassed in war production and military might. Even Germany, fighting many nations, would have defeated Russia except for the productive ability of this nation. We control the seas. We are powerful in the air. Russia can proceed in no direction to obtain food or military supplies except toward Palestine.

### The Government Predicts Drought Ahead

In a current issue of a popular magazine there was an article entitled: "More Dry Years Ahead!" U. S. is suffering from another drought. Drought has spread from Texas to the west coast since 1951. The weather men figure the worst is yet to come. They say that the dry cycle is just begun. Let me quote you a few words from the Bible: "For nation shall rise up against nation and kingdom against kingdom: and there shall be famines, and pestilences, and earthquakes in divers places." (Matthew 24:7) and in Revelations 6:5-6 we read: And when he had opened the first seal, I heard the third beast saying, "Come and see, and I beheld a black horse and he that sat upon him had a pair of balances in his hand, I heard a voice in the midst of the four beasts saying, A measure of wheat for a penny, and three measures of barley for a penny. And see that thou hurt not the wine." The drought spread in 1952 and a little more in 1953 until only a small portion on the west coast, a portion around the Great Lakes and the state of Florida remained untouched. God spoke to us in tongues and interpreta-

tion about a year ago and told us that a drought was on its way. God knew before the government did!

Let me tell you something else ... there are spots on the sun! Scientists say that the reason our summers are so much warmer every year, and droughts in such large areas of the country, are the spots on the sun. Scientists admit that if these spots continue to increase in size, the earth will be scorched and burned. My Bible says that in the last days, the sun will scorch men's backs.

### Local Rains Alleviate Drought in Few Areas

In the east, southwest and west there is still a severe shortage of rainfall. In Pennsylvania the grass and trees are parched and dry. Many lawns are badly damaged. Measures are being taken to aid midwestern farmers and southwestern cattlemen. This thing is spreading all over our land and to other nations throughout the world. God is going to bring the Jews back to the Holy land. This is all part of God's plan to accomplish his purposes. Then, God will destroy the Russian army on the plains of Maggedo as they come against Israel. He has spoken it and He will bring it to pass.

### God Used Invisible Atoms

As every scientist and most individuals know, everything was made of the unseen atom. A scientist recently told me that the literal translation of the word "atom" is "STONES OF FIRE." God created the world out of STONES OF FIRE. The Bible says, Lucifer was present when God created the earth. He knew what God used to make the world. But Lucifer cannot create anything. He can only destroy and confuse. God said to Lucifer in Ezekiel 28:14 ... "Thou art the anointed cherub that covereth; and I have set thee so: thou wast upon the Holy mountain of God; Thou hast walked up and down in the midst of the STONES OF FIRE. Those stones of fire were the unseen atoms which God used to create that which is seen. Man has never been able to do anything with atomic energy except destroy and probably never will.

### The Devil Inspired the Invention of the A-Bomb

Lucifer put it into man's mind to create the bomb that could take so

many human lives. He's out to do everything he can because HE KNOWS HIS TIME IS SHORT! One of our great scientists says that one third of all the earth is going to die. That's exactly what the Bible says, but this prediction is by a man who is a Jew ... who doesn't even accept the New Testament as God's word. It's going to happen. Some of you may say, "They don't believe that in my church." If you read the same King James translation that we have all read for years, you'd better believe it. It's in God's holy word. Some of you who are reading this are scared to death of an atomic bomb attack. You ought to be making preparations for that ... but I don't mean in a bomb shelter! Why will you fear the works of man? Why will you not accept the protection that Jesus Christ offers. He's the only real protection in time of scorching heat and searing bombs. An atomic bomb can only send a true Christian on to his eternal rewards. Don't you want to be prepared, my friend? Jesus wants to save you!

(THE END)

## The City in Outer Space

(Continued from Page 3)

Heaven, and fear turns into peace and joy.

### THE ETERNAL CITY IS COMING

My friends, God is matching the wisdom of this world with His own wisdom today! The church of the living God is moving forward in the supernatural realm at an amazing rate of speed! God is doing miraculous and marvelous things. The omnipotent power of the mighty Creator of the universe is at the disposal of the men and women who dare to believe His word. He who spoke the world into existence—who flung the stars and planets into the vastness of space will not be dwarfed in wisdom or knowledge by the created being. How puny are the efforts of mortal men to escape destruction by material methods. We may be able to ward off attacks by Russia indefinitely—but on the authority of God's word I can assure you that you cannot escape from the onslaughts of his majesty, the devil, unless you hide behind the blood of the Son of God—Jesus Christ. Hide yourself in the Creator today! There is no other escape. This world will be blasted by the searing bombs of enemy nations and by the righteous wrath of God—poured forth upon a world

## WOMAN HEALED OF DIABETES

Dear Brother Coe:

I do praise the Lord for healing me of sugar diabetes. After I received the handkerchief you sent me, I was healed of this affliction. The doctor gave me something to test my sugar content every day and after I received the handkerchief, he said that I was alright. He asked me what your name was. I feel like a new person.

## HEALED OF RUPTURE

Rev. Jack Coe:

Sometime ago I wrote to you about praying for me. I had a very bad rupture and I did get my healing. I've been examined by a doctor and I have no sign of a rupture anymore. Thank God! I had suffered a lot. I thank you ever so much for praying for me.

## BEDFAST WOMAN HEALED OF MANY AFFLICTIONS

Rev. Coe:

I was so low that I was almost dead. I was bedfast with heart trouble, rupture, and high blood pressure. One side of my face was paralyzed and drawn so badly that I could hardly swallow or eat. I also had severe headaches. God has healed me of these afflictions and I am still gaining strength.

## GOD HEALS CANCER

September 15, 1953.

Brother Coe:

Some time ago I wrote you that I had a cancer in my female organs. You sent me a prayer cloth and later when I went to see my doctor, he said he could find no trace of that horrible disease. He asked me to come back in three months for another examination. I am so glad to know that Jesus healed me.

## CITY (Continued from Page 14)

which is rejecting His Son. Friends, there will no doubt be a material city in outer space, but I'm not looking for a city made with human hands. I'm looking for a city whose builder and maker is God, where we will have eternal peace throughout the ceaseless ages. Ladies and gentlemen, if you haven't found your way to that city, I'd like to direct you. That way is the blood of Jesus Christ, which was shed for the remission of your sins. Ask Him now to take away all the dark stains of sin and give you peace which is not based on the futile efforts of man but on the work of the eternal God. He will immediately cleanse you of all unrighteousness. You can live forever in that ETERNAL CITY WHICH WILL COME DOWN FROM OUTER SPACE — THE NEW JERUSALEM! There we'll need no space suits and oxygen masks, but we will be clothed with indescribable glory by the matchless, incomparable supernatural Christ.
