Kuhlman, Albert address seniors

The Rev. Kathryn Kuhlman, noted Christian evangelist and author, and the Honorable Carl Al- bert, Speaker of the United States House of Representatives, will address Baccalaureate and Commencement exercises Sunday, May 28. Miss Kuhlman will speak to 146 graduating seniors at the 10:10 a.m. Baccalaureate cere- mony; Albert will highlight commencement exercises at 2:30 p.m.

To be held in the Health Re- sources Center, the two cere- monies will honor ORU’s fourth graduating class composed of 74 men and 72 women. One hundred eight Bachelor’s of Art, 50 Bachelor’s of Science, and 8 Bachelor’s of Music Education will be presented. Honor students total 32—4 summa cum laude, 15 magna cum laude, and 15 cum laude.

Miss Kuhlman, television per- sonality and president of a na- tional charitable foundation, is one of America’s most promi- nent religious figures. At 16 she dropped out of high school to pursue a “definite call to the ministry.” She has written three religious best-sellers and regularly conducts “miracle schools” throughout America.

Albert, an “Okie,” holds the highest national political office ever held by one from this state. He has been a member of the House of Representatives since 1947. A former party whip and majority floor leader, he was elected Speaker in 1971.

Albert’s achievements are nu- merous: a Phi Beta Kappa graduate of the University of Oklahoma, President of the OU Student Senate, a Rhodes schol- ar at Oxford University in Eng- land, a law practitioner, and a member of Oklahoma’s Hall of Fame.

For the first time in its seven years, ORU will present honor- ary doctorates to commencement guests. They will be awarded to Miss Kuhlman in the field of Human Letters, to Speaker Al- bert and Senator Jennings Rand- dolph in the area of law.

Senator Randolph addressed ORU’s first graduating class in 1968 and is recognized, for his work as editor, educator, and author. He currently represents West Virginia in the United States Senate.

Ervin publishes new book— guide to Holy Spirit

Dr. Howard M. Ervin, Chair- man of the Department of The- ology, recently received the first copies of his new book, This Which Ye See And Hear, A Lay- man’s Guide to the Holy Spirit.

The book is composed of a series of individual essays con- structed by the underlying theme of the Pentecostal experience. Dr. Ervin contributes their in- spiration to two sources. First, his earlier volume, These Are Not Drunk As Ye Suppose, analyzed the Biblical and textual basis for and nature of the char- ismatic gifts of the Holy Spirit. This Which Ye See And Hear attempts to draw out some of its hidden theological implica- tions. Secondly, the present Pente- costal renewal presses laymen as well as theologians for a mutu- alizing theological understanding. These pastorally-oriented essays answer questions raised by laymen.

(Continued on Page 3)

Ministerium abolished

Schedule changes announced

Beginning the 1972-73 aca- demic school year, the January ministerium program will be abo- lished and the spring semester will begin January 3. President Oral Roberts and Dr. Carl Ham- ilton, Vice-President of Acade- mic Affairs, announced a joint statement Tuesday.

The spring schedule change will make it possible for ORU students “to enter the job market at an earlier date, at the end of the first week in May rather than after the last week of May,” the President said. “Also,” he said, “we can do a better job with a strong summer-school program than with a 4-week ministerium plus the present week summer session.

Under the new spring sched- ule, registration for superclaus- sus, freshmen, and special stu- dents will be Wednesday, January 3, 1973, and classes will begin Thursday, January 4. The new schedule will allow for two vacation breaks, the first a 10-day midterm break to be given each year at the end of the eighth week. The break for the next school year will begin after the last class Friday, March 2, and extend until classes resume Monday, March 12. A second break, Easter vacation, will be af- ter the last class Thursday, April 19, and classes will resume Tuesday, April 24. The dates for the latter vacation will change as the dates for the celebration of Easter.

Spring classes next year will end Friday, April 27. Gradua- tion be June 1.

“A decision concerning days of summer school will be an- nounced next fall,” President Roberts said. “The summer ses- sion will begin either immediate- ly after graduation or in the first full week in June. We will start with the same basic 6-week sum- mer school term as we have in the past, although we may set up 3-week courses like the Lan- guage Institute program either at the beginning or the end of the four-week session.

“Probably the student body as a whole can make better use of the time after May 6 than the 3 or 4 weeks in January,” the President said. “We will also give students better opportuni- ties for programs for study abroad with 3 or 4 months available for continuous study.

“The schedule change has been in formation for the past 2 years and was approved Monday by the department chairmen.”

Students win science grants

by Ruth Figi

Joyce Vogt, David Markley, and Jim Rabe have each won $500 awards as $800 National Science Foun- dation Grants. The fellowships come directly from the federal government through the Under- graduate Research Participation Program of the University of Oklahoma, and their purpose is to prepare undergraduate biology students for graduate school. Miss Vogt, Markley, and Rabe will study for 10 weeks this sum- mer at the University of Oka- homa Biological Station at Lake Texoma, which is some distance from the main university. The station is in a remote area, 15 miles away from the nearest town.

Ed Nelson, Assistant Profes- sor of Biology, said the students, if they are obligated to do under- terms of the grant is to work

with one of the faculty members at the University of Oklahoma. They will live in this scientific community and while there, they live, breathe, and talk their re- search. Our three ORU students will participate in the research activities of some faculty mem- ber at the station. These people are outstanding, all have their Ph.D.'s, come from all parts of the U.S., and are active research- ers. They'll live in a dormitory, which is adequate, but not quite as modern as ORU's, and take meals family style.

ORU student Jan Richardson won the grant last year, and after a good summer of research, she was able to publish her results in the scientific literature. She was able to do this because she was able to do the research at her summer school. Richardson, in return, was able to publish her results in the scientific literature.
Concluding remarks

With this issue, the Oracle completes its seventh volume. This marks the last issue for which I will be editor. Dan Carlson and Cindy Dominguez are editors this year, who will return as co-editors next year.

Serving as editor has been a very profitable experience for me, and I trust as well for ORU. It has been a great responsibility and one that affects each and every student at ORU. ORU is a family with a Christian basis, in which each member affects the others. Bennett of the small population of the entire ORU family, the action and inaction of each of the administration, faculty, or students have a significant effect on the other two parts of the population.

Senate Soundings

Student activities bill tabled

The 1973-74 Student Senate tabled the student activities reorganization plan at the first meeting of next semester in Tuesday morning's Student Senate meeting. The proposal will be considered along with other constitutional changes in the fall.

Stickley, senior class president, brought up the problems of the congestion in the gym's parking lot. It was pointed out that there is an opportunity for service and fulfillment that Ray expressed as "very fascinating and challenging."

Serving as editor has taught me many things. First of all, it has taught me the unusual nature of ORU. ORU is a family with a Christian basis, in which each member affects the others. Bennett of the small population of the entire ORU family, the action and inaction of each of the administration, faculty, or students have a significant effect on the other two parts of the population.

"Godot" presents total experience

Those of you who did not see ORU's final theatrical production for the 1973-72 season missed what could be called one of the most interesting experiences in ORU theatre. "Waiting for Godot" presented an audience with more than just a play; it presented a total experience of emotion.

The play was billed as an absurd play; the definition of which is still debatable, but most would agree that is the exact purpose of theatre of the absurd -- to be defined in terms which best fits the individual person.

As we individuals never have the same feelings as each other the fact that absurd theatre is without a definite meaning should be obvious.

Director Sandy Martin's interpretation of Samuel Beckett's play was entirely different from the accepted norm. Setting the play in a circus atmosphere, San-
di felt the absurdity of the plot, or lack of one, could be better emphasized. There has been some discussion as to whether this sort of interpretation works; after previously seeing the play presented "on a deserted road" the presentation in Timko-Bar-ton Auditorium definitely works just as well if not better than the original script setting. Of course, this depends on what the director wants to say through the playwright's work.

Miss Martin's goal was to point out the religious aspects of the play through its symbolic parts made obvious to Sandy through her research on the religious implications of "Godot."

It should be mentioned that these symbols, although obvious to Sandy Martin, are not the general consensus toward the meaning of "Waiting for Godot." This is not to say Miss Martin is out in left field without a glove, but it is to say the interpretation presented this past weekend is, as far as we know, original.

The originality came out in a beautifully coordinated use of sound, lights, costumes, and movement. Perhaps there were instances when one of these elements was dominant, but as a whole the four elements, like the cast, worked as one unit. A compliment to Sandy's ability to "put it all together," one may say.

As far as the cast goes, the live characters in the play were portrayed by Clay Howell, Phil (Continued on Page 3)

Total commitment is that important

Finally, I am more sure than ever that total commitment to Christ is the most important characteristic that can be developed in each individual life if unity in faith and apathy is to disappear. Commitment is talking less and putting action to one's principles. It is doing that little bit extra that someone else should really do. It is placing service before one's own personal interests. It is best seen in those who are more concerned about what Christ will say and not man.

Commencement is May 28. It is an end. It is also another beginning. The words of the apostle Paul in Phil. 3:13, 14 are to be heeded: "Forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the highcalling of God in Christ Jesus." Kenneth G. Holmgren

News headlines...

Wallace shot in Maryland

Alabama Governor George C. Wallace was shot down in Birmingham while he was campaigning at a shopping center at Laurel, Md. A man identified as Arthur Herman Brokovich, 21, of Milwaukee was arrested immediately after the shots rang out.

Following a 5-hour operation at a Maryland hospital, police and hospital spokesman said Wallace's life was not in danger, but some paralysis was reported. One of Wallace's surroungs said, "There is a possibility of permanent paralysis."

He said, "His legs show paralysis with loss of sensation from the hips down."

Connally resigns cabinet post

Secretary of the Treasury John B. Connally, a longtime power in Texas Democratic politics, was sworn in today as Secretary of the Treasury.

President Nixon announced that he was nominating George P. Shultz, head of the Office of Management and Budget, to succeed Connally, who will stay on until Shultz is confirmed.

Wallace wins in Mich., Md.

Alabama Governor George C. Wallace scored overwhelming victories in the Michigan and Maryland presidential primaries this week.

McGovern ran second in Michigan with 27 percent of the vote, Humphrey third with 16 percent. In Maryland, Humphrey's second place share was 27 percent; McGovern trailed him with 22 percent. Wallace swept the vote in both states receiving 51 percent in Michigan and 39 percent in Maryland.

The Oracle
Academy Awards presentation

"Man for All Seasons" tops

Awards

"Man for All Seasons," directed by Raymond J. Lewoskind, won the best production award in the first ORU Academy Awards presentation late Tuesday afternoon. The presentation was televised live in the dining commons from the ORU Television Production Center.

Other drama awards presented were to best student director—Sandra Martin, "Waiting for Godot"; best actor—Charles Jones in "Man for All Seasons"; best supporting actor—Phil Boudriault in "A Man for All Seasons"; best supporting actress—Karen Allen in "A Man for All Seasons"; best art direction—Alma Goldner; "The Rainsmaker"; best costume design—Ken Johnson, winner of the film contest, received the best film entry in the contest while Kim Miller received awards for both best sound and best original film, "Jeff Monroe" was honored for best editing.

Broadcasting awards went to Judy Hartman for the best dramatic radio program, "I'll Never Get Ready!"; Mike O'Harrow, best musical short subject director; Roger Bush, best dramatic television program, "Christ in the Concrete City"; and Mark Labash, best documentary television program, "The Life and Ministry of Oral Roberts.

Nancy Pollard, Don Ryan, and AndrejWasowski excelled individually in music competition, winning best performance awards for single vocalist, single instrumentalist, and faculty member recital respectively. The Chamber Singers Spring Concert was cited as best performance by a vocal group, and the Concert Band Spring Concert won the instrumental group trophy.

"The Ivy" award honored Tom Foy, producer of the Academy Awards program. David West, who designed the set for the production, was cited for best art direction for television, and student directors Judy Hartman and Robert McDonough were named for best live television direction.

General nominations for each category were completed by the student body and final voting was done by the campus professional organization in each area. The Academy Awards was the final production of the Cos 3083 class.

One of the students helping in production of the Academy Awards program said, "It (the Academy Awards) showed me more about all that goes into doing a major television production. In spite of all the hard work and long hours involved, I feel television may be the area in which my life's work may lie."

Knott to present recital at Air Force Academy Chapel

Betty Knott, a 7-year member of the ORU Music Department, will give an organ recital at the Air Force Academy Chapel in Colorado Springs, Colo., July 16.

When asked how her selection was made, Mrs. Knott, who is editor of a Presbyterian Church, Tulsa, visited the Academy last summer, submitted her name and recital program, I was contacted and asked to submit a tape and background. Then in late January I received an invitation to give a recital in July," Governor David Hall, a member of Southminster and a friend of Mrs. Knott, also recommended her.

"Mrs. Knott said, "It is considered a great honor to be invited to play there since the Academy chooses only eight recitalists from among thousands of organists for their summer recital series." Only the great concert organists, such as Catherine Crozier and Jerald Hamilton have played there. The concert is a major tourist month at the Academy, so Mrs. Knott will have to practice during the evenings to avoid tourists.

The Academy Chapel, an example of great height with the use of rose windows, is divided into three chapels (Catholic, Jewish, and Protestant). The largest being the Protestant where the recitalist will be. The organ built by Miller and designed by Holckamp, is considered one of the five finest organs in the United States. It is engineered, both sound and eye appeal, having 67 ranks and 3 manuals.

Mrs. Knott will study in June with Marie Claire Alain, Anton Heller and Luigi Tagliavini at the International Organ Seminar at Southern Methodist University in Dallas.

Along with teaching organ, piano, and counterpoint at ORU, she has been organist at Southminster for over 13 years.

Godot—a total experience

(Continued from Page 2)

Boostright, Larry Peers, Eugene Lynn, and Don Monroe, continued working together as they should to present a balanced performance. Each character had his momentum soliloquy as provided by Beckett, but, as in the purpose, all five contributed equally to Godot.

While viewing "Godot" the criticism of the involvement of the afore-mentioned elements arose. At times it seemed as though the absurdities had been meveled by "movie" mood music, and the changes in lights became forecasts for scenes to come. This is preventing certain times became too slapstick, possibly destroying the preconceived mood of the play. But as the production continued these preconceptions were turned into conviction of present criticisms. The value of educational theatre made itself apparent.

In the discussion after Saturday night's performance, Miss Martin mentioned the theme of play in the words of St. Paul. "...though we see through a glass darkly..." To Sahid Martin, this play represents man's frustration at not knowing what the future holds and not remembering yesterday's lesson. I assume the entire cast and crew of "Waiting for Godot" would agree that we as God's children have the answer to these questions, and the task before us is to take this answer to every man—wherever he may be waiting."

Ervin publishes book on Holy Spirit

A second book by Howard M. Ervin, editor of Midi, the ORU music journal, has been published. "Teaching is to be enjoyed if it is to be productive," believes Lexy 1. Hatchett, who was named the 1971-1972 Outstanding Faculty Member at last Friday's honors chapel. Hatchett, who is instructor of the math section for both elementary and secondary teacher training, has been a member of the ORU mathematics staff since the University opened.

A native Oklahoman, he received his master of teaching degree in the summer of 1961 and taught at Southwestern College in Oklahoma City 7 years before coming to ORU.

The end of the school year is traditionally a time of memories, of thinking; "it was the best of times, it was the worst of times." Somehow while looking back, the days have a way of melting together, leaving feelings rather than specific details. Most of all, for seniors the year is—finis.
Titans take two from Evangel

By Dan Presley

In its first year as a member of the NCAA university division, Oral Roberts' intercollegiate sports program has lived up to a standard of excellence that has earned the respect of the entire nation.

The Titans, led by Herb Fenster, have distinguished themselves in football, basketball, men's and women's track and field, volleyball, tennis, golf, soccer, baseball, softball, and intramural sports. In fact, ORU has won both the Missouri Valley Conference and the NCAA national championship in men's soccer, and is now favored to win the NCAA national championship in women's soccer as well.

Intramural sports ended this week, culminating with the intramural sports banquet last night. President Oral Roberts presented the All-Sports Trophy to the Sindicato, sixth floor yellow wing. Twenty medals and 60 trophies were presented for a great season's achievements in the intramural sports program.

Last week in the Brotherhood won the intramural track meet with chosen Few second finished. Hal's Angels, disqualified for having an ineligible player, who is not the same as the one who came first in the meet, Wild Buck.

Sindicato wins intramural All-Sports championship

In first year NCAA play, ORU teams 'earn respect' with conference and national championships in football, men's and women's track and field, volleyball, soccer, baseball, and softball.

Titans sweep from Evangel last Thursday, taking the contests via 6-1 and 6-3 scores. The victories gave the Titans a 12-game winning streak, and brought their final season record to 33-18.

ORU pitching ace Jack Cheney picked up his eighth victory in the first stanza, and narrowly missed posting his fifth shutout in a row. Before Thursday's contest, Cheney had given up only one run in 28 innings.

The Titans have an outside chance to make the NCAA play-offs, as their 33-18 record is the second best in District 5. TU must still compete in the Missouri Valley conference tournament, and is favored to go on to meet the Big Eight Champions in district play to gain a berth in the College World Series. Shaping 18-5 at such an early date, as expected in Missouri Valley, the Titans are moving into the play-off spot.

Season statistics for the Titans record the team batting average at .293, with Rich Rizerek owning a .397 clip at top individual hitter.

Home run leader was Greg Davis with 6. He also took RBI honors with 42.

In the pitching department, the team ERA was a respectable 2.98, with individual honors going to Gorden Helm with a 1.20 mark and Jack Cheney at 1.26.

The Titans' streaking artist was Steve Cain, with 47 strikes outs in 31 innings and only 17 bases on balls. Cheney's 8-1 mark, which brought his career pitching record to 24-5, was the best for the Titans this season.

The Titans' total record of 33-18 brought Coach Herb Dawn's team three-year mark to 84-53.

Netters close season with 31-6-1 mark

Coach Bernis Duke's ORU TI- tans went out on a high note, closing out their successful season with victories over Tunia University and Oklahoma University of Tulsa to bring its record to 31-6-1. In- cluded among the wins were two tournament championships.

Last Saturday the Titans fought their way to the finals with crosstown rival Tunia University before pulling out a 7-6 win over Tunia in the last match of the day in a come-from-behind effort. TU, who possessed a fine 29-6-6 record entering the match with ORU, was ahead at the end of the singles play by a score of 4-2 and needed only to win one of the remaining three doubles matches. "They had us in a bad trouble," said Coach Duke, "but our players really put it out to win the match."

The team of Tonic and Pak- odi for ORU was the team to have as the match went out of control of the match. After losing the first set 6-4, Tonic and Pak- odi came back to win twice by scores of 6-4, 7-5, and 6-4 in their doubles match and the team match. The close 5-4 victory maintained ORU's undefeated record over TU and ran its overall record against TU to 13-0.

In the final match of the sea- son last Tuesday, the Titans de- feated Oklahoma State University by a score of 5-2. ORU took four of the five singles matches and split the two doubles matches to achieve the 5-2 victory. Josef Solc closed out his career on a winning note, taking his sin- gle's match 6-1, 6-0.

Prospects for next year's ten- nis team look quite good at this point with all players except Solec expected to return and last year's No. 2 player, Kiyoshi Tanabe, returning after a season of tour- ning the amateur tennis circuit.

(Good through May 28)
Linda Mix named grad assistant

Linda became interested in Linda Mix, 22-year-old senior who will be graduating cum laude this May with a B.A. in health and physical education, has been accepted as a graduate assistant at the State University of New York at Cortland. The honor includes complete tuition waiver with a stipend.

Since teaching is Linda's major interest, she feels that it is necessary to do graduate work toward her Master's Degree. Her graduate program is a 3-semester program in which she will study such courses as theory, research, and literature of physical education. Linda especially enjoys movement, educational gymnastics, swimming, and creative physical activity.

Grant winners study with OU researchers

(Continued from Page 1) Fresh Water Clams.” This year Rabe will be working on wildlife management, Joyce in parasitology (study of parasites) and Markley in ornithology (the study of birds).

Rabe will be studying with an expert in “environmental impact statements. This is a new program brought into existence by the new federal laws on such matters,” according to Dr. C. D. Delmar Thomas, the man who “gives the physics department going here,” is retiring at age 71 from his part-time post in ORU’s Natural Sciences Department.

Born in Montana, he received his B.S. from Northeast Missouri State College, his A.M. from the University of Missouri, and his Ph.D. from the University of Missouri. Thomas began his teaching career in 1920 at a rural elementary school. He was also a high school principal before instructing on the college level. In 1946 he was appointed chairman of the Department of Physics at Tulsa University and retired in 1966. In 1967 he joined the faculty of ORU as a full-time member. Special permission was granted him to teach part-time here for the past two semesters.

McCamey: OSO coach

Sam McCamey, Oral Roberts University's outstanding basketball player who has been drafted by the Boston Celtics, has been named head coach of the Oklahoma Special Olympics. Oklahoma Special Olympics is a program of sports training and athletic competition for mentally retarded children. Several local meets have been conducted and local winners will compete May 27 on the Tulsa University campus.

A team will be selected to represent Oklahoma in the national Special Olympics to be held on the UCLA campus.

McCamey has become involved in working with handicapped children at the Husson Memorial Center. "This is a fine program," he said. "Too many times we let handicapped children decide that they are limited and cannot do things that other children do."
